00185 Rome
Italy

22 September 2014

Dear Dr Sansoni,

We are pleased to inform you that your application for ICN accreditation of the “Italian ICNP Research and Development Centre” has been approved. We appreciate the significant work that you and your core members have done in the preparation of the application. Your very ambitious work plan supports the goals of the ICN eHealth Programme. We are strongly emphasizing the application of ICNP in nursing care settings and you have demonstrated your intent to pursue this goal. We also note your commitment to the translation of ICNP and its use in nursing education programmes in Italy. We look forward to your significant contributions to the Consortium of ICN Accredited Centres as well as to your active contributions to ICNP and the ICN eHealth Programme.

You may use the following designation for your Centre:

“Italian ICNP Research and Development Centre”

You may also use the ICN logo with the designation. Guidelines for use of the ICN title and logo are attached.

ICN is pleased to facilitate communications regarding ICNP activities amongst the Centres Consortium and through other ICN communication channels. Members of ICN Accredited Centres are expected to attend an ICN-organized Consortium meeting, to be held every two years in conjunction with the ICN Congresses and Conferences. The next Consortium meeting will be in June 2015 at the ICN Conference in Seoul Korea. Members are also invited to provide contributions to the ICN eHealth Bulletin at least once per year as a means of disseminating news about the activities of the centres. The Bulletin provides information about current topics related to ICNP, Telenursing, and eHealth.

We look forward to a very productive relationship between your centre and ICN. Please contact myself or the ICN eHealth Programme office (aamherdt@uwm.edu or cbartz@uwm.edu) if you have questions.

Yours sincerely,

David C. Benton
ICN Chief Executive Officer

c.c. Nicholas Hardiker, ICN eHealth Programme Director
Amy Coenen, ICNP Programme Director
Cecilia Sironi, President, CNAI
